ARNS

Association of Respiratory Nurse Specialists

ARNS Awards

Award categories and criteria

1. **Respiratory Rising Star**

This category is to recognise a respiratory nurse who is providing compassion care, over and beyond that usually undertaken in a respiratory nursing career.

The nurse can come from any background but must be working predominately in a respiratory field and not necessarily as a nurse specialist

2. **Respiratory Team of the Year**

This Award recognises a respiratory team who deliver respiratory care over and beyond expectation, and that has really supported and evidenced the difference made to the patient experience in respiratory care.

Entries can be self-nominated from MDTD teams but a respiratory CNS must be present at the conference if shortlisted.

3. **Outstanding contribution to respiratory nursing**

The recipient of this prestigious award is selected by the ARNS Executive Committee and will be announced at the Annual Conference Awards Dinner.

This award will recognise an individual respiratory nurse and the contribution she/he has made to ARNS and the wider respiratory nursing community.

The closing date for applications is 14th February 2015.

Winners will be agreed by 20th March 2015.
