

Call for Abstracts for the Annual Conference of ARNS 2019

For this year's conference we are calling for abstracts for **thematic poster and spoken presentations. Awards will be given for the best in both categories.**

These may include reports of clinical audit, research, innovation in practice, or evaluation of clinical processes and systems. Previously published or presented work is also welcome. Further to this we will also welcome **case studies** and clinical **reflections**.

The abstracts will be judged on specific criteria (listed below) by an independent panel. Authors of the three highest scoring abstracts will be invited to deliver a spoken presentation, and will have an opportunity to publish in the Nursing Times.

All authors of accepted abstracts will be required to make a short informal presentation of their work at their posters during judging; therefore at least one of the authors must be registered at the conference.

If you require support with your abstract or poster please contact either:

Wendy Preston email: Wendy.Preston@rcn.org.uk

Katy Beckford katy.beckford@nhs.net

Guidelines for contributors:

Abstracts should be a maximum of 350;

Key themes include: Clinical audit and research, Innovation in respiratory nursing, evaluation of respiratory nursing clinical processes and systems. Case studies and Reflective practice.

Abstract presentation: Title, aims/ objectives, methods (innovation, or service process change), findings / results.

If selected for Presentation: 8 minute spoken presentation, with associated media, 5 minutes for questions.

If selected for Poster: A1 (84.1cm width x118.9cm height) or A0 (59.4cm width x84.1cm height) Portrait orientation. The poster should display a clear flow of objectives, methods (or innovation/ service change) findings, conclusion and implications for further respiratory practice.

Submission deadline: Friday 2nd March 2019

Please return your completed form to: info@arns.co.uk
